

## Senior Software Developer Job Description

### Senior Software Developer

Prometheus8

Location: Myrtle Beach, SC

Salary: From \$85,000 a year - Full-time

Benefits: Paid vacation and sick leave • 401(k) after first 60 days • Direct payment of employees medical coverage

### Position Summary

Prometheus8 is a global leader in DevOps solutions, and we are seeking an experienced senior software developer to head up our development team. In this role, you will be responsible for overseeing the development and implementation of new software systems. You may also be required to update existing software and conduct feasibility studies on company systems. While your role will be managerial in nature, you will also be able to code applications, create reports, and mentor the junior developers. To ensure success as a senior software developer, you should have high-level managerial skills, in-depth knowledge of programming languages, and outstanding project management skills. Top-class Senior Software Developers know the skills and aptitude of junior staff and assign tasks accordingly.

### Senior Software Developer Responsibilities:

- Meeting with development managers to discuss software projects.
- Conducting feasibility studies for upgraded software systems.
- Designing new software programs, websites, and applications.
- Assigning tasks to junior developers such as coding, testing, debugging, and analytics.
- Writing advanced programming code.
- Reviewing updated software systems.
- Managing project timelines and tasks.
- Writing development reports.
- Creating technical documents for new software programs.
- Training staff on software use.

### Senior Software Developer Requirements:

- Advanced knowledge of programming languages and tools including JavaScript, HTML5, PHP, TypeScript, MySQL, Linux/Ubuntu, Git, Docker, Kubernetes, AWS EC2, GitHub, Jenkins (or other CI/CD tool)
- Bachelor's degree in computer engineering or computer science.
- 10+ years experience as a software programmer.
- Managerial/lead experience preferred.
- Experience creating and maintaining databases.
- Experience working with Agile development technologies.
- Advanced project management skills.
- Good interpersonal skills.

Must be legally authorized to work in the United States.

We are an equal opportunity employer and value diversity at our company. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status. This job description is intended to convey information essential to understanding the scope of the job and the general nature and level of work performed by job holders within this job. However, this job description is not intended to be an exhaustive list of qualifications, skills, efforts, duties, responsibilities or working conditions associated with the position. Prometheus8 reserves the right to amend this job description at any time.
